

List of chapters for Kotlin Design Patterns and best practices by Alexey Soshin

Each topic should cover 8 to 10 pages. Adjust for a ten-minute presentation.

1. Decorator
2. Bridge
3. Iterator state
4. Command
5. Chain of responsibility (only 4 pages)
6. Interpreter
7. Mediator
8. Threads and coroutines: tech requirements + looking deeper into threads
9. Introducing coroutines/ jobs/ coroutines under the hood
10. Designing for concurrency: tech requirements + deferred value
11. Barrier
12. Any sub chapter of section 3 (around 8 pages)
